[I] Cases reported to the MDH, assumed to be alive, and currently residing in Minnesota as of December 31, 2025.
[II] HIV/AIDS prevalence rate calculated by dividing the total number of prevalent cases in a stratum (e.g persons aged 20-24 years) by the estimated population for that stratum and multiplying by 100,000. Population estimates are based on 2022 CDC Wonder Data.
[III] Residence information missing for 11 persons living with HIV and 1 person living with AIDS.
[IV] Age missing for 8 persons living with HIV and 0 persons living with AIDS.

Suburban = Seven-county metropolitan area except Minneapolis & St. Paul (Anoka, Carver, Dakota, Hennepin (except Minneapolis), Ramsey (except St. Paul), Scott, and Washington counties). Greater Minnesota = Remaining 80 counties outside of the 7-county metropolitan area.

Numbers exclude federal and private prisoners, but include 6 state prisoners, 156 refugees in the HIV-Positive Refugee Resettlement Program, and 143 additional refugees/immigrants with HIV infection prior to resettling in Minnesota.

Percentages may not add to 100 due to rounding.

[I] Cases reported to the MDH, assumed to be alive and currently residing in Minnesota as of Dec. 31, 2025.

[II] African-born Black people are reported separately from other Black people (born in the U.S. or elsewhere). "Other" includes multi-racial people and people with unknown race.

[III] Rates calculated using CDC Wonder -- 2022 data. The population estimate for African-born persons was calculated by the Minnesota State Demographic Center. The population estimate for Black, non African-born persons (288,832) was calculated by subtracting the U.S. Census estimate for African-born persons (134,282) from the total Black population (423,114). Note that this assumes that all African-born persons are Black (as opposed to another race).

[IV] Race/ethnicity are missing for 0 persons living with HIV(non-AIDS) and 0 persons living with an AIDS diagnosis

MSM = Men who have sex with men. IDU = Injecting drug use. Heterosexual = For males: heterosexual contact with a female known to be HIV+, an injecting drug user, or a hemophiliac/blood product or organ transplant recipient. For females: heterosexual contact with a male known to be HIV+, bisexual, an injecting drug user, or a hemophiliac/blood product or organ transplant recipient. Perinatal = Mother to child HIV transmission. Other = Hemophilia patient/blood product or organ transplant recipient. Unknown risk = Unreported or unknown risk.

Numbers exclude federal and private prisoners, but include 6 state prisoners, 156 refugees in the HIV-Positive Refugee Resettlement Program, and 143 additional refugees/immigrants with HIV infection prior to resettling in Minnesota.

Percentages may not add to 100 due to rounding.

State Total[II]	5,516	4,072	9,588	167.7

[I] Cases reported to the MDH, assumed to be alive and currently residing in a Minnesota county as of Dec. 31, 2025.
[II] Residence information missing for 0 people living with HIV and 0 people living with AIDS.

Numbers by county exclude federal, and private prisoners, but include 6 state prisoners, 150 refugees in the HIV-Positive Refugee Resettlement Program and 137 additional refugees/immigrants with HIV infection prior to resettling in Minnesota. Numbers for counties in which a state correctional facility is located include those inmates. The total number of state prisioners is 20. State correctional facilities are located in the following counties: Anoka, Carlton, Chisago, Goodhue, Itasca, Rice, Scott, Sherburne, and Washington.

[III] HIV/AIDS prevalence rate calculated by dividing the total number of prevalent cases in a stratum (e.g persons living in Hennepin county) by the estimated population for that stratum and multiplying by 100,000. Population estimates are based on 2022 CDC Wonder Data. Rates not calculated for counties with fewer than 5 cases.

[I] All deaths= Number of deaths known to have occurred among all people living with HIV infection in Minnesota, regardless of location of diagnosis and cause of death.
Numbers include refugees in the HIV-Positive Refugee Resettlement Program and other refugees/immigrants diagnosed with AIDS after their arrival in the U.S.
Case numbers exclude people who are federally and privately incarcerated.
