

Last Name: Jane	MDH Sample ID: 240000421	Provider: Doe, Jay
First Name: Doe	Submitter Sample ID: P15-2222	
DOB (Age): 07/01/2016 (7y)	Collection Date: 1/2/2024	Originating Facility: ABC clinic
Gender: Female	Received Date: 2/1/2024	
Patient MRN: 123456789	Report Date: 2/5/2024	Submitting Facility: XYZ reference center
MDH ID: 20-097-0000087	Report Time: 9:54 AM	

Yeast Identification - Isolate

Final Report 2/3/2024

Healthcare Facility of Origin Name
Not Reported

Healthcare Facility of Origin State
Not Reported

Healthcare Facility of Origin Zip Code
Not Reported

Source
Abscess; Isolate

Yeast Identification Result
Candida auris

MDH Comment
Organism identified using MALDI-TOF which is an FDA cleared test, but a non-FDA approved database was used. This test was developed and its performance characteristics determined by the MDH Public Health Laboratory. It has not been cleared or approved by the U.S. Food and Drug Administration: 21CFR 809.30(e). The FDA has determined that such clearance is not necessary.

Candida auris Clade

Final Report 2/5/2024

This test was developed and its performance characteristics determined by the MDH Public Health Laboratory. It has not been cleared or approved by the U.S. Food and Drug Administration: 21CFR 809.30(e). The FDA has determined that such clearance is not necessary.

Test	Result
Clade Designation	Clade IV
