### **QUESTIONS FOR ROOT CAUSE ANALYSIS**

#### **Participants (job titles):**

## **Description of event:**

- 1. What happened?
- 2. Where did process go wrong? What steps were involved in (contributed to) the event?
- 3. What are the usual steps in the process(es)?
- 4. Why do you think it happened?

### **Human Factors**

- 1. What role did human performance play in this event?
- 2. What human factors were relevant to this case? I.e. fatigue, staff illness, noise, temperature, scheduling, personal problems, stress, rushing, cognitive errors?
- 3. Were distractions or interruptions a factor in this case?

#### **Communication among staff / Information availability**

- 1. Was communication adequate and timely in this event?
- 2. Are there obstacles to communication relating to this event?
- 3. Was the needed information available, accurate, and complete?
- 4. Was patient identification an issue in this case?
- 5. Does the medical record documentation adequately provide a clear picture of what happened?
- 6. Were there issues related to continuity of care?

#### Aspects of care and care planning:

- 1. What issues related to physical or behavioral assessment were a factor in this event?
- 2. What policies or procedure relate to the level and frequency of observation and monitoring?
- 3. Did the level and frequency of patient observation or monitoring meet standard of care?
- 4. What issues relating to philosophy of care or care planning had an impact on this case?

### **Staffing**

- 1. How did staffing levels compare with ideal levels? (Give #s)
- 2. Was workload a factor in this event?
- 3. How are staffing contingencies handled?

### **Training/Competency/**

- 1. Were issues relating to staff training or staff competency a factor in this event? Is training provided prior to the start of the work process?
- 2. Was an individual performing in a situation for which they were inappropriately trained or prepared?
- 3. How is staff performance assessed? Are competencies documented?
- 4. Are the results of training monitored over time?
- 5. Is there a program to identify what training is needed?

# **Supervision of Staff and Credentialing** (Includes physicians in training)

- 1. Was supervision of staff an issue in this case?
- 2. Was the staff physician involved in the case in a timely way?
- 3. Are there issues related to credentialing?

### **Adequacy of Technological Support**

1. Was technological support adequate?

## **Equipment / Equipment Maintenance/Management**

- 1. What equipment / products were involved in this case/event?
- 2. Did equipment / products function properly?
- 3. Did alarms, monitoring systems function properly?
- 4. Was equipment used as designed?
- 5. Has staff been adequately trained in the use of the equipment / products?
- 6. Was equipment maintenance an issue?
- 7. Is there a maintenance program?

### **Environmental aspects**

- 1. Was the work area or environment designed to support the function for which it was being used? (i.e space, privacy, safety, access)
- 2. Does the work environment provide physical stressors for staff? (i.e. temperature, noise, improper lighting)
- 3. Does the work environment meet current codes, specifications, and regulations?
- 4. What systems are in place to identify environmental risks?
- 5. What security systems and processes relate to this event? Were there issues related to security systems and processes?
- 6. What emergency and failure modes responses have been tested? (safety evaluations, disaster drills, etc?)

### **Control of Medications: Storage/Access**

1. Was storage or access to medications an issue?

### **Labeling of Medication**

1. Was labeling medications (manufacturer or HCMC labeling) an issue?

# Leadership:

- 1. To what degree is the culture conducive to risk identification and reduction?
- 2. What are the barriers to communication of potential risk factors?
- 3. How is the prevention of adverse outcomes communicated as a high priority?

# Other questions:

- 1. Are there any other factors that influenced this outcome?
- 2. Were there uncontrollable external factors?
- 3. What can be done to protect against the uncontrollable factors?
- 4. What other areas or services are impacted (might have a similar event)?

### **Communication with Patient/Family**

- 1. Was communication with patient and family adequate?
- 2. Was there disclosure regarding the untoward outcome, details of the event?

### **Summary of Root Causes and contributing factors:**
