1.2 Program Description

[Minnesota Statute 145.929](#) authorizes the Commissioner of Health to award grants to support eligible dental providers who serve the uninsured. Funds will be awarded each year proportionally among all eligible programs, based on the total number of uninsured patients under the age of 21 served.

1.3 Funding and Project Dates

Funding

Eligible dental organizations will receive a percentage of the available funding based on a simple ratio of the number of individual uninsured patients under the age of 21 served by each provider as a portion of the total number of individual uninsured patients under the age of 21 served by all eligible applicants.

As determined by statute, no single eligible provider will receive less than 2 percent or more than 30 percent of the total appropriation for this grant. If the number of clinics is such that the minimum of 2 percent cannot be provided to each eligible provider, MDH will limit eligibility to the 20 eligible providers who serve the highest number of uninsured patients under the age of 21.

If selected, you may only incur eligible expenditures when the grant agreement is fully executed, and the grant has reached its effective date, whichever is later.

No work on grant activities can begin until a fully executed grant agreement is in place and the State's Authorized Representative has notified the Grantee that work may start.

The funded applicant will be legally responsible for assuring implementation of the work plan and compliance with all applicable state requirements including worker's compensation insurance, nondiscrimination, data privacy, budget compliance, and reporting.

Accountability and Reporting Requirements

It is the policy of the State of Minnesota to monitor progress on state grants by requiring grantees to submit written progress reports at least annually until all grant funds have been expended and all of the terms in the grant agreement have been met.

2.4 Grant Provisions

Affirmative Action and Non-Discrimination Requirements for all Grantees

The grantee agrees to comply with applicable state and federal laws prohibiting discrimination.

Minnesota's nondiscrimination law is the Minnesota Human Rights Act (MHRA) [Minn. Stat. § 363A](#); See e.g. [Minn. Stat. § 363A.02](#). The MHRA is enforced by the [Minnesota Department of Human Rights](#). Some, but not all, MHRA requirements are reflected below. All grantees are responsible for knowing and complying with nondiscrimination and other applicable laws.

The grantee agrees not to discriminate against any employee or applicant for employment because of race, color, creed, religion, national origin, sex, marital status, status regarding public assistance, membership or activity in a local commission, disability, sexual orientation, or age regarding any position for which the employee or applicant for employment is qualified.

The grantee agrees not to discriminate in public accommodations because of race, color, creed, religion, national origin, sex, gender identity, sexual orientation, and disability.

The grantee agrees not to discriminate in public services because of race, color, creed, religion, national origin, sex, gender identity, marital status, disability, sexual orientation, and status with regard to public assistance.

The grantee agrees to take affirmative steps to employ, advance in employment, upgrade, train, and recruit minority persons, women, and persons with disabilities.

The grantee must not discriminate against any employee or applicant for employment because of physical or mental disability regarding any position for which the employee or applicant for employment is qualified. The grantee agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. [Minn. Rules, part 5000.3550](#).

Audits

Per [Minn. Stat. § 16B.98, subd. 8](#), the grantee's books, records, documents, and accounting procedures and practices of the grantee or other party that are relevant to the grant or transaction are subject to examination by the granting agency and either the legislative auditor or the state auditor, as appropriate. This requirement will last for a minimum of six years from the grant agreement end date, receipt, and approval of all final reports, or the required period of time to satisfy all state and program retention requirements, whichever is later.

Conflicts of Interest

MDH will take steps to prevent individual and organizational conflicts of interest, both in reference to applicants and reviewers per [Minn. Stat. § 16B.98](#) and the Office of Grants Management's [Policy 08-01, "Conflict of Interest Policy for State Grant-Making." \(Word\)](#)

Applicants must complete the [Applicant Conflict of Interest Disclosure form \(PDF\)](#) and submit it as part of the completed application. Failure to complete and submit this form will result in disqualification from the process.

Organizational conflicts of interest occur when:

- a grantee or applicant is unable or potentially unable to render impartial assistance or advice
- a grantee's or applicant's objectivity in performing the grant work is or might be otherwise impaired
- a grantee or applicant has an unfair competitive advantage

Individual conflicts of interest occur when:

- an applicant, or any of its employees, uses their position to obtain special advantage, benefit, or access to MDH's time, services, facilities, equipment, supplies, prestige, or influence
- An applicant, or any of its employees, receives or accepts money, or anything else of value, from another state grantee or grant applicant with respect to the specific project covered by this RFP/project.
- An applicant, or any of its employees, has equity or a financial interest in, or partial or whole ownership of, a competing grant applicant organization.
- An applicant, or any of its employees, is an employee of MDH or is a relative of an employee of MDH.

In cases where a conflict of interest is perceived, disclosed, or discovered, the applicants or grantees will be notified and actions may be pursued, including but not limited to disqualification from eligibility for the grant award or termination of the grant agreement.

Non-Transferability

Grant funds are not transferrable to any other entity. Applicants that are aware of any upcoming mergers, acquisitions, or any other changes in their organization or legal standing, must disclose this information to MDH in their application, or as soon as they are aware of it.

Public Data and Trade Secret Materials

All applications submitted in response to this RFP will become property of the State. In accordance with [Minn. Stat. § 13.599](#), all applications and their contents are private or nonpublic until the applications are opened.

Once the applications are opened, the name and address of each applicant and the amount requested is public. All other data in an application is private or nonpublic data until completion of the evaluation process, which is defined by statute as when MDH has completed negotiating the grant agreement with the selected applicant.

After MDH has completed the evaluation process, all remaining data in the applications is public with the exception of trade secret data as defined and classified in [Minn. Stat. § 13.37](#), subd. 1(b). A statement by an applicant that the application is copyrighted or otherwise protected does not prevent public access to the application or its contents. ([Minn. Stat. § 13.599](#), subd. 3(a)).

If an applicant submits any information in an application that it believes to be trade secret information, as defined by [Minn. Stat. § 13.37](#), the applicant must:

- Clearly mark all trade secret materials in its application at the time it is submitted,
- Include a statement attached to its application justifying the trade secret designation for each item, and
- Defend any action seeking release of the materials it believes to be trade secret, and indemnify and hold harmless MDH and the State of Minnesota, its agents and employees, from any judgments or damages awarded against the State in favor of the party requesting the materials, and any and all costs connected with that defense.
- This indemnification survives MDH's award of a grant agreement. In submitting an application in response to this RFP, the applicant agrees that this indemnification survives as long as the trade secret materials are in possession of MDH. The State will not consider the prices submitted by the responder to be proprietary or trade secret materials.

MDH reserves the right to reject a claim that any particular information in an application is trade secret information if it determines the applicant has not met the burden of establishing that the information constitutes a trade secret. MDH will not consider the budgets submitted by applicants to be proprietary or trade secret materials. Use of generic trade secret language encompassing substantial portions of the application or simple assertions of trade secret without substantial explanation of the basis for that designation will be insufficient to warrant a trade secret designation.

If a grant is awarded to an applicant, MDH may use or disclose the trade secret data to the extent provided by law. Any decision by the State to disclose information determined to be trade secret information will be made consistent with the Minnesota Government Data Practices Act ([Ch. 13 MN Statutes](#)) and other relevant laws and regulations.

If certain information is found to constitute trade secret information, the remainder of the application will become public; in the event a data request is received for application information, only the trade secret data will be removed and remain nonpublic.

2.5 Review and Selection Process

Review Process

Upon receipt of the grant application Letter of Intent (LOI), MDH will calculate the total dollar amount of grant funding by formula, determined by statute, as follows:

Eligible dental health organizations who submit a complete application will receive a percentage of the available funding based on a simple ratio of the number of individual uninsured patients under the age of 21 served by each provider, as a portion of the total number of individual uninsured patients under the age of 21 patients served by all eligible providers.

No single eligible provider will receive less than 2 percent or more than 30 percent of the total appropriation for this grant.

The award decisions of MDH are final and not subject to appeal. Additionally:

- MDH reserves the right to withhold the distribution of funds in cases where proposals submitted do not meet the necessary criteria.
- The RFP does not obligate MDH to award a grant agreement or complete the project, and MDH reserves the right to cancel this RFP if it is considered to be in its best interest.
- MDH reserves the right to waive minor irregularities or request additional information to further clarify or validate information submitted in the application, provided the application, as submitted, substantially complies with the requirements of this RFP. There is, however, no guarantee MDH will look for information or clarification outside of the submitted written application. Therefore, it is important that all applicants ensure that all sections of their application are complete to avoid the possibility of failing an evaluation phase or having their score reduced for lack of information.

Notification

After the Letter of Intent (LOI) of the application process, MDH estimates notifying all eligible applicants via email of their grant formula distribution by October 30, 2025, with the budget and narrative application due November 14, 2025.

If it is necessary to include expenditures in this general category, include a detailed description of the activities as they relate to the direct operation of the program.
