1.2 Program Description

Per legislation passed during the 2007 session, [Minnesota Statute 145.9269](#) empowers the Commissioner of the Minnesota Department of Health to distribute grants to Federally Qualified Health Centers (FQHCs) and FQHC Look-Alikes “operating in Minnesota to continue, expand, and improve federally qualified health center services to low-income populations.” The program is administered by the Office of Rural Health and Primary Care (ORHPC).

1.3 Funding and Project Dates

Funding

Funding will be allocated to eligible organizations using a formula determined by statute. The amount of each subsidy shall be in proportion to each federally qualified health center's amount of discounts granted to patients during the most recent calendar year as reported on the federal Uniform Data System (Table 9D, #13e).

Only discounts provided in Minnesota are included for health centers that have locations outside of the state. The formula also includes a 5 percent minimum and 30 percent maximum award for clinics with less than 5 percent or more than 30 percent of total discounted services.

You may only incur eligible expenditures when the grant agreement is fully executed, and the grant has reached its effective date, whichever is later.

The FQHC Subsidy grant project period will be January 1, 2026, to December 31, 2028. Each year an award amount will be allocated as determined by the funding formula outlined above.

The award amount may include funding with different end dates. Timelines for when funding is required to be spent will be outlined in your notice of funding and in the grant agreement. Attachment A: Sample Exhibit B provides an overview of how the budget will be outlined in the grant agreement.

No work on grant activities can begin until a fully executed grant agreement is in place and the State's Authorized Representative has notified the Grantee that work may start.

The MHRA is enforced by the [Minnesota Department of Human Rights](#). Some, but not all, MHRA requirements are reflected below. All grantees are responsible for knowing and complying with nondiscrimination and other applicable laws.

The grantee agrees not to discriminate against any employee or applicant for employment because of race, color, creed, religion, national origin, sex, marital status, status in regard to public assistance, membership or activity in a local commission, disability, sexual orientation, or age in regard to any position for which the employee or applicant for employment is qualified.

The grantee agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination,

NOTICE OF GRANT OPPORTUNITY

rates of pay or other forms of compensation, and selection for training, including apprenticeship. [Minn. Rules, part 5000.3550](#).

Audits

Per [Minn. Stat. § 16B.98, subd. 8](#), the grantee's books, records, documents, and accounting procedures and practices of the grantee or other party that are relevant to the grant or transaction are subject to examination by the granting agency and either the legislative auditor or the state auditor, as appropriate. This requirement will last for a minimum of six years from the grant agreement end date, receipt, and approval of all final reports, or the required period of time to satisfy all state and program retention requirements, whichever is later.

Conflicts of Interest

MDH will take steps to prevent individual and organizational conflicts of interest, both in reference to applicants and reviewers per [Minn. Stat. § 16B.98](#) and the Office of Grants Management's [Policy 08-01, "Conflict of Interest Policy for State Grant-Making." \(Word\)](#)

Applicants must complete [Applicant Conflict of Interest Disclosure form \(PDF\)](#) and submit it as part of the completed application. Failure to complete and submit this form will result in disqualification from the review process.

Organizational conflicts of interest occur when:

- A grantee or applicant is unable or potentially unable to render impartial assistance or advice
- A grantee's or applicant's objectivity in performing the grant work is or might be otherwise impaired
- A grantee or applicant has an unfair competitive advantage

Individual conflicts of interest occur when:

- An applicant, or any of its employees, uses their position to obtain special advantage, benefit, or access to MDH's time, services, facilities, equipment, supplies, prestige, or influence
- An applicant, or any of its employees, receives or accepts money, or anything else of value, from another state grantee or grant applicant with respect to the specific project covered by this Notice of Grant Opportunity/project.
- An applicant, or any of its employees, has equity or a financial interest in, or partial or whole ownership of, a competing grant applicant organization.
- An applicant, or any of its employees, is an employee of MDH or is a relative of an employee of MDH.

In cases where a conflict of interest is perceived, disclosed, or discovered, the applicants or grantees will be notified and actions may be pursued, including but not limited to disqualification from eligibility for the grant award or termination of the grant agreement.

Non-Transferability

Grant funds are not transferable to any other entity. Applicants that are aware of any upcoming mergers, acquisitions, or any other changes in their organization or legal standing, must disclose this information to MDH in their application, or as soon as they are aware of it.

Public Data and Trade Secret Materials

All applications submitted in response to this Notice of Grant Opportunity will become property of the State. In accordance with [Minn. Stat. § 13.599](#), all applications and their contents are private or nonpublic until the applications are opened.

Once the applications are opened, the name and address of each applicant and the amount requested is public. All other data in an application is private or nonpublic data until completion of the evaluation process, which is defined by statute as when MDH has completed negotiating the grant agreement with the selected applicant.

After MDH has completed the evaluation process, all remaining data in the applications is public with the exception of trade secret data as defined and classified in [Minn. Stat. § 13.37](#), subd. 1(b). A statement by an applicant that the application is copyrighted or otherwise protected does not prevent public access to the application or its contents. ([Minn. Stat. § 13.599](#), subd. 3(a)).

If an applicant submits any information in an application that is believed to be trade secret information, as defined by [Minn. Stat. § 13.37](#), the applicant must:

- Clearly mark all trade secret materials in its application at the time it is submitted,
- Include a statement attached to its application justifying the trade secret designation for each item, and
- Defend any action seeking release of the materials believed to be trade secret; and indemnify and hold harmless MDH and the State of Minnesota, its agents and employees, from any judgments or damages awarded against the State in favor of the party requesting the materials, and any and all costs connected with that defense.
- This indemnification survives MDH's award of a grant agreement. In submitting an application in response to this Notice of Grant Opportunity, the applicant agrees that this indemnification survives as long as the trade secret materials are in possession of MDH. The State will not consider the prices submitted by the responder to be proprietary or trade secret materials.

MDH reserves the right to reject a claim that any particular information in an application is trade secret information if it determines the applicant has not met the burden of establishing that the information constitutes a trade secret. MDH will not consider the budgets submitted by applicants to be proprietary or trade secret materials. Use of generic trade secret language encompassing substantial portions of the application or simple assertions of trade secret without substantial explanation of the basis for that designation will be insufficient to warrant a trade secret designation.

FY 2026 FEDERALLY QUALIFIED HEALTH CENTER SUBSIDY GRANT PROGRAM
NOTICE OF GRANT OPPORTUNITY

If a grant is awarded to an applicant, MDH may use or disclose the trade secret data to the extent provided by law. Any decision by the State to disclose information determined to be trade secret information will be made consistent with the Minnesota Government Data Practices Act ([Ch. 13 MN Statutes](#)) and other relevant laws and regulations.

If certain information is found to constitute trade secret information, the remainder of the application will become public; in the event a data request is received for application information, only the trade secret data will be removed and remain nonpublic.

2.5 Review and Selection Process

Review Process

Upon receipt of the grant application Letter of Intent (LOI), MDH will calculate the total dollar amount of grant funding by formula, determined by statute, as follows:

Funding will be allocated to eligible organizations by formula based on statute. The formula calculation determines each award amount. Awards to clinics are calculated using a formula that incorporates the total of discounted services based on UDS data (Table 9D, 13e).

Only discounts provided in Minnesota are included for Health Centers that have locations outside of the state. The formula also includes a 5 percent minimum and 30 percent maximum award for clinics with less than 5 percent or more than 30 percent of total discounted services.

The award decisions of MDH are final and not subject to appeal. Additionally:

- MDH reserves the right to withhold the distribution of funds in cases where proposals submitted do not meet the necessary criteria.
- The Notice of Grant Opportunity does not obligate MDH to award a grant agreement or complete the project, and MDH reserves the right to cancel this Notice of Grant Opportunity if it is considered to be in its best interest.
- MDH reserves the right to waive minor irregularities or request additional information to further clarify or validate information submitted in the application, provided the application, as submitted, substantially complies with the requirements of this Notice of Grant Opportunity. There is, however, no guarantee MDH will look for information or clarification outside of the submitted written application. Therefore, it is important that all applicants ensure that all sections of their application are complete to avoid the possibility of failing an evaluation phase or having their score reduced for lack of information.

Notification
