RFP Part 2: Program Details

2.1 Priorities

Health Equity Priorities

It is the policy of the State of Minnesota to ensure fairness, precision, equity, and consistency in competitive grant awards. This includes implementing diversity and inclusion in grant-making. [The Policy 08-02 on Rating Criteria for Competitive Grant Review \(PDF\)](#) establishes the expectation that grant programs intentionally identify how the grant serves diverse populations, especially populations experiencing inequities and/or disparities.

The Mental Health Cultural Community Continuing Education (MHCCCE) Grant Program seeks to increase the number of mental health supervisors from communities of color and underrepresented communities.

This grant will benefit:

- Mental health professionals from communities of color and underrepresented communities.
- Minnesotans seeking mental health care from a professional who is also a member of a community of color or underrepresented community.
- Mental health practitioners wishing to learn from, and be mentored by, a supervisor who is also a member of a community of color or underrepresented community.

Grant outcomes will include:

- An increase in the number of mental health professionals from communities of color and underrepresented communities who complete the required training to serve as supervisors for mental health practitioners.

Other Competitive Priorities

Competitive priority will be given to proposals that demonstrate one or more of the following:

- Collaboration with tribal, county, public health, and nonprofit providers offering clinical services within communities of color and underrepresented communities. Collaboration may occur in recruiting trainees, developing training, and implementing training, for example.
- A proposed course of study that meets the standards for more than one licensing board.
- Trainers who have experience supervising and instructing professionals who are from underrepresented communities and/or communities of color.
- Proposals that limit class enrollment to eligible professionals from communities of color and underrepresented communities to foster a supportive and advanced learning environment that builds on existing expertise.

FY 2027 MENTAL HEALTH CULTURAL COMMUNITY CONTINUING EDUCATION
GRANT PROGRAM - TRAINERS

- Proposals that address how trainee absences will be managed to ensure that all enrollees successfully complete the training.
- MDH will consider the geographic service areas of applicants. It is anticipated that the state will provide awards to multiple entities to ensure statewide access to training opportunities.

2.2 Eligible Projects

Applicants must propose a comprehensive training and support program that will allow trainees to earn all course credits or continuing education units required by their respective licensing boards to serve as a supervisor to students and practitioners seeking licensure. Standards for the course of study are established by each licensing board, and applicants can review these standards by visiting the licensing board websites provided in Section 1.4, Eligible Applicants.

Enrollment and Training Guidance

1. All training must be provided free of charge to eligible trainees.
2. The structure of the course of study will be defined by the applicant and should be designed to meet the unique needs of their trainee communities.
3. Training may be offered online, in person, or through a hybrid format. Training sessions may be offered in a traditional classroom format, with weekly or weekend sessions over the course of a semester, or via longer as conference-style training.
4. It is recommended, but not required, that the courses are only open to eligible individuals and not open to students who are ineligible for the free training. This fosters a supportive, cohort learning environment.
5. Applicants are encouraged to include a trainee stipend in their proposals. This stipend may be used by trainees to defray costs of completing the training, such as childcare, transportation, and time away from their practice. Trainee stipends should be offered to all eligible, enrolled trainees. Stipends should not exceed \$2,000 per trainee and should only be offered to trainees who satisfactorily complete the coursework.
6. Applicants are encouraged to address how they will manage trainee absences or missed coursework to increase the probability of all enrollees completing the required coursework.
7. For each trainee served, grantees must provide to MDH the trainee's name, email address, type of license and active license number(s), and other demographic information such as race, ethnicity, disability status, sexual orientation, and gender identity.
8. Grantees must provide a letter of acceptance for each enrollee that provides information on the course purpose and course schedule. This letter can be given to the trainee's employer by the trainee or the grantee.

Trainee Eligibility Requirements

Applicants must commit to verifying that all accepted trainees meet eligibility criteria.

2.4 Grant Provisions

Affirmative Action and Non-Discrimination Requirements for all Grantees

The grantee agrees to comply with applicable state and federal laws prohibiting discrimination.

Minnesota's nondiscrimination law is the [Minnesota Human Rights Act \(MHRA\)](#); See e.g. [Minn. Stat. § 363A.02](#). The MHRA is enforced by the [Minnesota Department of Human Rights](#). Some, but not all, MHRA requirements are reflected below. All grantees are responsible for knowing and complying with nondiscrimination and other applicable laws.

The grantee agrees not to discriminate against any employee or applicant for employment because of race, color, creed, religion, national origin, sex, marital status, status regarding public assistance, membership or activity in a local commission, disability, sexual orientation, or age regarding any position for which the employee or applicant for employment is qualified.

The grantee agrees not to discriminate in public accommodations because of race, color, creed, religion, national origin, sex, gender identity, sexual orientation, and disability.

The grantee agrees not to discriminate in public services because of race, color, creed, religion, national origin, sex, gender identity, marital status, disability, sexual orientation, and status regarding public assistance.

The grantee agrees to take affirmative steps to employ, advance in employment, upgrade, train, and recruit minority persons, women, and persons with disabilities.

The grantee must not discriminate against any employee or applicant for employment because of physical or mental disability regarding any position for which the employee or applicant for employment is qualified. The grantee agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. [Minn. Rules, part 5000.3550](#).

Audits

Per [Minn. Stat. § 16B.98](#), subd. 8, the grantee's books, records, documents, and accounting procedures and practices of the grantee or other party that are relevant to the grant or transaction are subject to examination by the granting agency and either the legislative auditor or the state auditor, as appropriate. This requirement will last for a minimum of six years from the grant agreement end date, receipt, and approval of all final reports, or the required time period to satisfy all state and program retention requirements, whichever is later.

Conflicts of Interest

MDH will take steps to prevent individual and organizational conflicts of interest, both in reference to applicants and reviewers per [Minn. Stat. § 16B.98](#) and the [Office of Grants Management's Policy 08-01, "Conflict of Interest Policy for State Grant-Making." \(PDF\)](#).

Applicants must complete the [Applicant Conflict of Interest Disclosure form \(PDF\)](#) and submit it as part of the completed application. Failure to complete and submit this form will result in disqualification from the review process.

Organizational conflicts of interest occur when:

- A grantee or applicant is unable or potentially unable to render impartial assistance or advice
- A grantee's or applicant's objectivity in performing the grant work is or might be otherwise impaired
- A grantee or applicant has an unfair competitive advantage

Individual conflicts of interest occur when:

- An applicant, or any of its employees, uses their position to obtain special advantage, benefit, or access to MDH's time, services, facilities, equipment, supplies, prestige, or influence.
- An applicant, or any of its employees, receives or accepts money, or anything else of value, from another state grantee or grant applicant with respect to the specific project covered by this RFP/project.
- An applicant, or any of its employees, has equity or a financial interest in, or partial or whole ownership of, a competing grant applicant organization.
- An applicant, or any of its employees, is an employee of MDH or is a relative of an employee of MDH.

In cases where a conflict of interest is perceived, disclosed, or discovered, the applicants or grantees will be notified and actions may be pursued, including but not limited to disqualification from eligibility for the grant award or termination of the grant agreement.

Non-Transferability

Grant funds are not transferrable to any other entity. Applicants that are aware of any upcoming mergers, acquisitions, or any other changes in their organization or legal standing, must disclose this information to MDH in their application, or as soon as they are aware of it.

Public Data and Trade Secret Materials

All applications submitted in response to this RFP will become property of the State. In accordance with [Minn. Stat. § 13.599](#), all applications and their contents are private or nonpublic until the applications are opened.

Once the applications are opened, the name and address of each applicant and the amount requested are public. All other data in an application is private or nonpublic data until completion of the evaluation process, which is defined by statute as when MDH has completed negotiating the grant agreement with the selected applicant.

After MDH has completed the evaluation process, all remaining data in the applications is public with the exception of trade secret data as defined and classified in [Minn. Stat. § 13.37](#), subd. 1(b). A statement by an applicant that the application is copyrighted or otherwise protected does not prevent public access to the application or its contents. ([Minn. Stat. § 13.599](#), subd. 3(a)).

If an applicant submits any information in an application that it believes to be trade secret information, as defined by [Minn. Stat. § 13.37](#), the applicant must:

- Clearly mark all trade secret materials in its application at the time it is submitted,
- Include a statement attached to its application justifying the trade secret designation for each item, and
- Defend any action seeking release of the materials it believes to be trade secret and indemnify and hold harmless MDH and the State of Minnesota, its agents and employees, from any judgments or damages awarded against the State in favor of the party requesting the materials, and all costs connected with that defense.

This indemnification survives MDH's award of a grant agreement. In submitting an application in response to this RFP, the applicant agrees that this indemnification survives as long as the trade secret materials are in possession of MDH. The State will not consider the prices submitted by the response to be proprietary or trade secret materials.

MDH reserves the right to reject a claim that any information in an application is trade secret information if it determines the applicant has not met the burden of establishing that the information constitutes a trade secret. MDH will not consider the budgets submitted by applicants to be proprietary or trade secret materials. Use of generic trade secret language encompassing substantial portions of the application or simple assertions of trade secret without substantial explanation of the basis for that designation will be insufficient to warrant a trade secret designation.

If a grant is awarded to an applicant, MDH may use or disclose the trade secret data to the extent provided by law. Any decision by the State to disclose information determined to be trade secret information will be made consistent with the Minnesota Government Data Practices Act ([Ch. 13 MN Statutes](#)) and other relevant laws and regulations.

If certain information is found to constitute trade secret information, the remainder of the application will become public; in the event a data request is received for application information, only the trade secret data will be removed and remain nonpublic.

2.5 Review and Selection Process

Review Process

Funding will be allocated through a competitive process with review by a committee with relevant expertise. The review committee will evaluate all eligible and complete applications received by the deadline.

MDH will review all committee recommendations and is responsible for award decisions. **The award decisions of MDH are final and not subject to appeal.** Additionally:

- MDH reserves the right to withhold the distribution of funds in cases where proposals submitted do not meet the necessary criteria.
- The RFP does not obligate MDH to award a grant agreement or complete the project, and MDH reserves the right to cancel this RFP if it is considered to be in its best interest.
- MDH reserves the right to waive minor irregularities or request additional information to further clarify or validate information submitted in the application, provided the application, as submitted, substantially complies with the requirements of this RFP. There is, however, no guarantee MDH will look for information or clarification outside of the submitted written application. Therefore, it is important that all applicants ensure that all sections of their application are complete to avoid the possibility of failing an evaluation phase or having their score reduced for lack of information.

Selection Criteria and Weight

The review committee will review each application on a 100-point scale. A standardized scoring system will be used to determine the extent to which the applicant meets the selection criteria.

The scoring factors and weight according to which applications will be evaluated are outlined in the **Application Scoring Criteria (Attachment C)**.

Grantee Past Performance and Due Diligence Review Process

- It is the policy of the State of Minnesota to consider a grant applicant's past performance before awarding subsequent grants to them.
- State policy requires states to conduct a pre-award risk assessment prior to a grant award. Additional information may be required for proposed budgets of \$50,000 and higher to a potential applicant in order to comply with [Policy 08-06 on Pre-Award Risk Assessment for Potential Grantees \(PDF\)](#).

Notification

MDH anticipates notifying all applicants via email of funding decisions by late January 2027.

Applicants will provide details about the program they are proposing. If your application is selected for award, this will be used to develop the work plan that will serve as the basis of a contract.

For each training program being proposed, provide:

- Name of the program.
- Licensee type(s) accepted as enrollees.
- Number of credit hours offered for each training.
- The proposed length of time, in hours, of the training sessions.
- The number of sessions to be offered, including any make-up sessions for trainees who miss a portion of the training.
- Staff role/title of the staff person responsible for each objective. If subcontracted, note the company or provider.
- Proposed number of trainees in each training program.
- Start date of training(s).
- End date of training(s).
- The location of the training program.

Section 5: Budget and Budget Narrative (Attachment B)

Provide a detailed justification of the estimated expenses to successfully meet the goals of the proposed project.

Budget Line Item

Provide the amount of grant funds requested in the appropriate fields for each budget area.

Budget categories include:

- **Salary:** This category should be used for program personnel who work directly for the applicant organization. Grant funds may only be used for staff working directly with the program. Staff time may include trainers/facilitators, recruitment staff, and curriculum development. Break down each staff role by time spent on project and estimated total costs. This may be presented as an hourly or salary rate. (Example: Trainer with \$70,000 annual salary x 0.5FTE = \$35,000).
- **Fringe:** Provide the cost of benefits and fringe based on your organization's allocation schedules or plans. Provide an explanation for the fringe rate and a summary of which costs are included. Grantees with a federally negotiated fringe rate may use grant funds for fringe costs in an amount up to but not exceeding that rate. Grantees must submit proof of the federally negotiated fringe rate as an attachment to this application. Grantees are responsible for ensuring that the rate is not applied to costs that are excluded from the federally negotiated fringe rate.
- **Travel:** This line should be used by grantees to detail costs for mileage, food, and lodging. In-state room and board for trainees and trainers requiring accommodations to participate in trainings is an allowable expense and will be reimbursed in the same manner and in no greater amount than as provided in the current Minnesota Management and Budget [Unrepresented Plan \(PDF\)](#) or at the grantee's established rate, whichever is lower, at the time travel occurred.
- **Supplies:** Outline estimated costs for supplies and materials for training program implementation. Include any postage and printing costs, and course books provided to trainees in this section.
- **Contracted:** This category should be used for any external contracts required to offer the trainings or meet proposed grant objectives. Examples include space rental, website development or a training facilitator, if the responsible party is not an employee of the applicant's organization. Applicants may use grant funds to work with outside consultants for training, but these costs must be project specific. Outline estimated costs for each proposed contract, separately.
- **Trainee Stipends and Support:** Provide the monetary amount and number of stipends or other method of providing support for each proposed course.

FY 2027 MENTAL HEALTH CULTURAL COMMUNITY CONTINUING EDUCATION
GRANT PROGRAM - TRAINERS

- **Other:** List project-specific costs here that are not already addressed and provide a brief description of the costs. If you would like to request support for the cost of training space owned by your organization, it should go here based on your organization's defined allocation schedule that must be maintained on file. However, facilities costs cannot be billed to this grant if they are already accounted for in an organization's indirect rate.
- **Indirect:** An indirect cost rate is a percentage used to distribute indirect costs to all of an organization's programs that benefit from them. Grantees cannot claim indirect costs in excess of the indirect cost rate that applies to their organization. Grantees must submit and retain on file the documentation of that indirect cost rate as outlined below:
 - Grantees without a federally negotiated indirect cost rate may use grant funds for indirect costs in an amount up to but not exceeding 15% of total direct costs.
 - Grantees with a federally negotiated indirect cost rate may use grant funds for indirect costs in an amount up to but not exceeding that rate. Grantees must submit proof of the federally negotiated indirect cost rate as an attachment to this application.
 - Grantees are responsible for ensuring that the rate is not applied to direct costs that are excluded from the indirect rate.
